

MANAGEMENT POLICY

CANDEA INDUSTRIAS PLÁSTICAS S.A.U, whose scope is the production of extrusion and coextrusion of sheets and plastic rolls, is specialized in the selling of plastic sheets, rolls and injection pieces. CANDEA has more than forty years of experience in the plastics processing sector through different industrial processes.

At present the company is specialized in the extrusion of plastic sheets and rolls. To do this, it has modern coextrusion lines of the highest technology in the market.

For CANDEA INDUSTRIAS PLÁSTICAS S.A., customer satisfaction is the essence of the company. To make it possible we have some basic points of action:

- Quick response to our clients needs by offering them an advice on the type of material, finish and color necessary for each application.
- We strive not only to meet their expectations and requirements but to exceed them.
- CANDEA will always seek the excellence of our products and services.
- We are tending to improve the production processes and machinery to achieve a continuous improvement of energy efficiency.
- We will focus on the elimination, if reduction is not possible, of the pollution caused by our products throughout the entire life cycle.
- We are promoting the use of recycled materials in our customers.
- We are meeting legal and regulatory requirements.
- CANDEA has set itself the goal of continuously improving the effectiveness of our quality management system.

Our management annually reviews this management policy, coinciding with the renewal of the quality system. This quality policy is the reference for the establishment by CANDEA of the quality objectives of the company.
